

ETS Southgate Temporary Transit Centre Goes into Service July 1, 2007

ETS Southgate Temporary Transit Centre Goes into Service July 1, 2007

This location change will affect customers on routes 6, 9, 17, 30, 31, 32, 33, 40, 41, 42, 44, 45, 46, 50, 51, 52, 73, 74, 80, 301, 304, 315, 320, 325.

ETS is moving bus operations from Southgate Transit Centre to a temporary location immediately north of 51 Avenue on 111 Street during construction of the new Southgate LRT Station and Transit Centre. The temporary site is scheduled to remain in service for approximately one year.

Routes currently using Southgate Transit Centre will continue to operate from the temporary transit centre. There will be minor modifications to the schedules and routes at the new location.

The temporary transit centre will have four platforms. Buses will stop on the west side of each platform. There will be two large heated shelters at the north end of the two platforms on the east side. Overhead canopies will be attached to the shelters to provide additional space for customers waiting outside. There will also be a number of standard size shelters on the site.

Help phones, pay phones, security cameras and on-site travel information will be available at the temporary transit centre.

Please check the map on the reverse for your new bus stop location at the temporary transit centre.

Thank you for your patience while we construct the new Southgate LRT Station and Transit Centre.

For more information please call ETS Customer Information at 496-1611 or check www.takeETS.com.
