Using Your Route Brochure

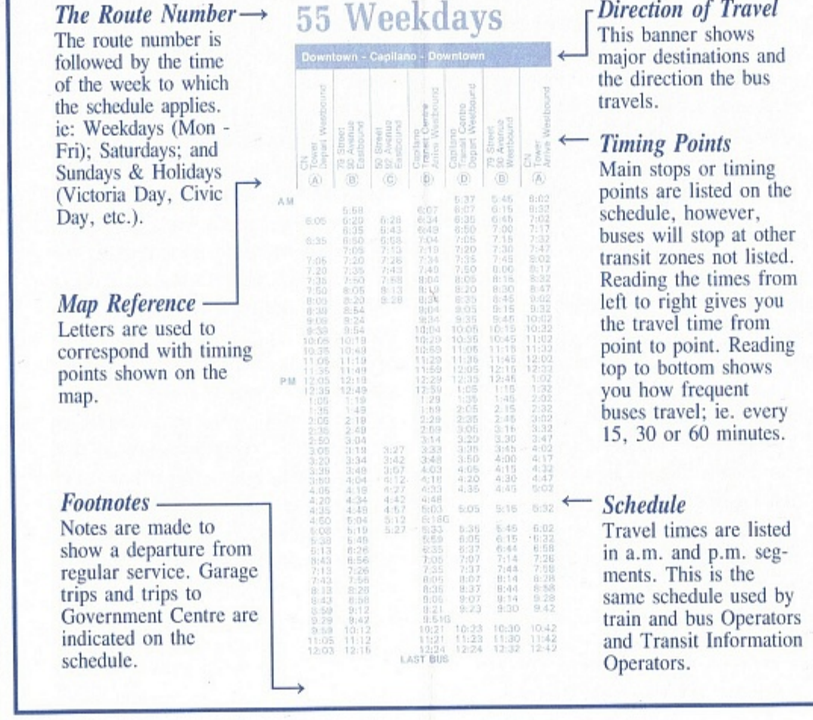

This schedule or timetable has the specific travel times of the route listed on the cover. The route number corresponds to the one found on the upper front of the bus. The purpose of route brochures is to help patrons plan their travel time and reduce unnecessary waiting at transit zones. Although difficulties in traffic may delay some buses, our Operators strive to maintain the schedule times printed in brochures.

Below is a diagram explaining what each area of the brochure represents.

The Route Number → The route number is followed by the time of the week to which the schedule applies. ie: Weekdays (Mon - Fri); Saturdays; and Sundays & Holidays (Victoria Day, Civic Day, etc.).

Map Reference Letters are used to correspond with timing points shown on the map.

Footnotes Notes are made to show a departure from regular service. Garage trips and trips to Government Centre are indicated on the schedule.

Direction of Travel ← This banner shows major destinations and the direction the bus travels.

Timing Points ← Main stops or timing points are listed on the schedule, however, buses will stop at other transit zones not listed. Reading the times from left to right gives you the travel time from point to point. Reading top to bottom shows you how frequent buses travel; ie. every 15, 30 or 60 minutes.

Schedule ← Travel times are listed in a.m. and p.m. segments. This is the same schedule used by train and bus Operators and Transit Information Operators.
